

## **Personal Statement**

My name is Jorge Miller Gutierrez Ospina, and I am a dedicated student currently pursuing a degree in Software Analysis and Development at SENA. Throughout my academic journey, I have developed a strong passion for technology and software development, and I am eager to leverage my skills and knowledge to secure a position as a software developer upon graduation.

### **Who am I?**

I am an enthusiastic and hardworking individual with a keen interest in problem-solving and creating innovative solutions through software. My interest in technology started at a young age and has only grown stronger as I have progressed through my education. I am committed to continuous learning and personal growth, thriving in environments that challenge me to push my limits and expand my skill set.

### **What program or position am I applying for?**

I am currently seeking opportunities in the field of software development. My ultimate goal is to secure a position as a software developer where I can apply the skills I have acquired during my training at SENA. I am particularly interested in roles that offer the opportunity to work on diverse projects, collaborate with talented professionals, and contribute to the development of high-quality software solutions.

### **Why am I fit for this program or position?**

My training at SENA has provided me with a solid foundation in software development, including proficiency in various programming languages, software engineering principles, and development tools. I have gained hands-on experience through numerous projects, where I have demonstrated my ability to write clean, efficient code, debug issues, and collaborate effectively with team members.

## **Strengths and Skills**

**Technical Skills:** Proficient in Java, Python, and JavaScript. Experienced with databases such as MySQL and MongoDB. Familiar with development tools like Git and Agile methodologies.

**Problem-Solving:** I have a natural aptitude for identifying issues and devising creative solutions. My analytical skills allow me to approach problems methodically and find efficient ways to resolve them.

**Teamwork:** I have successfully collaborated on multiple group projects, where communication and coordination were key to our success. I value teamwork and enjoy working in dynamic environments.

**Time Management:** Balancing academic responsibilities with personal commitments has taught me to manage my time effectively. I am adept at prioritizing tasks and meeting deadlines.

**Adaptability:** I am always open to learning new technologies and methodologies. My ability to adapt quickly to new environments and challenges makes me a versatile and reliable team member.

## **Future Goals**

My immediate goal is to complete my degree in Software Analysis and Development and secure a position as a software developer. In the long term, I aim to become a senior developer or project manager, leading projects and mentoring junior developers. I am passionate about continuous learning and plan to pursue further certifications and advanced degrees to stay current with industry trends and advancements.
