## **Personal Statement:**

Yuliet Faizuli Pachon Caro Aspires to Develop Software with Passion and Excellence

### **Who Am I?**

I am Yuliet, a woman passionate about technology with a strong desire to become a high-level software developer. Currently, I am pursuing a Technology in Software Development at SENA, combining my studies with my daytime job. This experience has allowed me to develop a strong work ethic, discipline, and the ability to manage my time effectively to fulfill my academic and professional responsibilities.

### **Why Am I a Fit for This Program?**

My motivation for software development lies in the potential this field has to transform lives and improve the world. I am fascinated by the idea of creating applications, systems, and tools that can positively impact society. This passion, along with my analytical skills, problem-solving abilities, and aptitude for learning programming languages, makes me an ideal candidate for this program.

### **What Skills Have I Acquired in My Training Program?**

Throughout my Technology in Software Development studies, I have acquired a wide range of technical and soft skills that have prepared me to face the challenges of the software world. Among the most outstanding technical skills are:

\* Programming in languages like Java, Python

- \* Database design and development
- \* Agile development methodologies
- \* Software testing
- \* Implementation of web and mobile systems

As for soft skills, I have developed:

- \* Excellent communication and teamwork skills
- \* Complex problem-solving abilities
- \* Critical and analytical thinking
- \* Self-learning and adaptability to new technologies
- \* Attention to detail and excellence in work

### **What Are My Future Goals?**

My main goal is to successfully graduate from the Technology in Software Development program and become a highly qualified software developer. I aspire to work in leading companies in the technology sector, where I can contribute to the development of innovative and challenging projects. In the long term, I dream of putting my knowledge and skills into practice to generate a positive impact on the world.
